1. Executive Summary & Financial Feasibility

Spayway is a 5–20 year community commerce, skill education, and cooperative wealth-building platform engineered for 100,000+ active users across West Africa (Nigeria, Ghana, Francophone UEMOA) and globally.

Our financial architecture combines **Daily Dividend Excitement** with **Three Institutional Cashflow Shields** that protect company working capital:

1. **92% Working Capital Retention on Day 1:** By structuring our open 3-Generation referral bonuses at **5% (Gen 1), 2% (Gen 2), and 1% (Gen 3)** (8% maximum total referral outlay), **92% of every registration goes directly into company offline/online trading and inventory turnover**.
2. **$15.00 Minimum Withdrawal Liquidity Buffer:** Members receive daily dividends into their wallet every 24 hours ($1.25/day on $30; $2.00/day on $50), creating daily engagement. However, because the minimum withdrawal is **$15.00 (₦24,000)**, the company retains 100% of a $30 member's cash for **12 full days** and a $50 member's cash for **8 full days** before the first cash-out occurs.
3. **Pack Isolation Per User (Anti-Arbitrage Rule):** Each pack tier ($30, $50, $120, $350) is isolated to **1 active pack per user**, preventing users from stacking multiple $30 packs and naturally guiding them to upgrade to the **$120 Pro Package**.

3. Psychological Pricing Strategy: Driving Users to the $120 Package

How We Psychologically Make $120 the #1 Choice ("Decoy & Cash-Out Frequency Anchoring")

- **1. Pack Isolation Per User:** Because each tier is isolated to 1 active pack per user, a member cannot buy four $30 packs to mimic $120. To earn higher daily income, they must step up into the **$120 Pro Pack**.
- **2. Twice-Weekly $15 Cash-Out Speed (3.1–3.6 Days vs. 12 Days):** On the $30 pack, a user waits **12 long days** to withdraw $15. On the **$120 Pro Pack**, they hit the $15 withdrawal threshold **every 3.1 to 3.6 days (Twice a Week!)**.
- **3. The +$0.70/Day Academy & Promoter Booster ($4.10 → $4.80/Day):** Completing 1 Academy course on the $120 pack activates an automatic **+$0.70/day booster**, raising daily earnings from $4.10/day to **$4.80/day** ($288 over 60 days; 100% capital back in 25 days).
- **4. Exclusive Days 61–90 Extended Business Royalty Window (90-Day Total Lifecycle):** While $30 and $50 packs expire on Day 60, the **$120 Pro Pack** grants an extra **30-Day Royalty Window (Days 61 to 90)** sharing in weekly company business profits, plus **$15.00 in FREE Promoter Ad Credits** and a physical/digital Merch Kit!

4. The 3-Stage 60/90-Day Contract Timeline

Stage 1 (Days 1 to ~25): 100% Capital Recovery | Stage 2 (Days ~26 to 60): Daily Profit | Stage 3 (Days 61 to 90): Pro Royalties

1. **Days 1 to ~24–29 (Capital Recovery Phase):** Daily dividends credit the member's wallet every 24 hours until **100% of their registration capital is recovered** (Day 24 on $30; Day 25 on $50; Day 25–29 on $120; Day 28 on $350).
2. **Days ~26 to 60 (Active Daily Dividend Window):** Having recovered 100% of their capital, the member continues receiving daily dividends through **Day 60** as pure profit.
3. **Days 61 to 90 (Extended Business Royalty Window — Exclusive to $120 & $350):** From Day 61 to Day 90, $120 Pro (`15 Units`) and $350 Executive (`50 Units`) contracts remain active in the company's **Business Profit Pool**, receiving ongoing dividends declared by the Super Admin from real offline/online trading.

5. Open 3-Generation Referral System (5% • 2% • 1%)

Every registered member has **immediate, unrestricted access to all 3 Referral Generations** whenever anyone in their 3-level downline buys or upgrades a pack (online or approved offline):

Referral Generation	Commission Rate	Payout on $30 Pack	Payout on $50 Pack	Payout on $120 Pro Pack	Payout on $350 Pack
Generation 1 (Direct Invite)	**5.0%**	$1.50 (₦2,400)	$2.50 (₦4,000)	**$6.00 (₦9,600)**	$17.50 (₦28,000)

Generation 3 (3rd Level Team)	**1.0%**	$0.30 (₦480)	$0.50 (₦800)	**$1.20 (₦1,920)**	$3.50 (₦5,600)
